THE LEE KUAN YEW WORLD CITY PRIZE

THE LEE KUAN YEW WORLD CITY PRIZE is a biennial international award to recognise individuals and organisations that have made outstanding contributions to the creation of vibrant, liveable and sustainable urban communities around the world. It seeks to recognise individuals and organisations responsible for urban initiatives that display foresight, good governance or innovation in tackling the many urban challenges faced by cities. These urban initiatives can include (but are not limited to) urban planning projects, urban policies and programmes, urban management, as well as applied technology in urban solutions. ACADIA 2011 DESIGN + FABRICATION COMPETITION

The **ACADIA 2011 ANNUAL CONFERENCE** with the support of FLATCUT_ seeks proposals for innovative geometric forms that push the limits of design through the exploration of integrative material strategies for digitally fabricated assemblies. This year's conference theme addresses integrative trajectories and areas of overlap between design and other disciplines. While design's allied fields of engineering and construction will be explored, collaborative possibilities between design and other concentrations, such as computer science, material science, mathematics and biology will also be highlighted. WORLD HABITAT DAY

The **UNITED NATIONS** has designated the first Monday of October every year as **WORLD HABITAT DAY**. This year, World Habitat Day will be celebrated on **OCTOBER 3RD, 2011** and the Global Celebration will be hosted by the Government of Mexico. The idea is to reflect on the state of our towns and cities and the basic right of all, to adequate shelter. It is also intended to remind the world of its collective responsibility for the future of the human habitat. [Read more](#)

ASSISES OF EUROPEAN LANDSCAPE

The 5th edition of **ASSISES OF EUROPEAN LANDSCAPE** in **STRASBOURG, FRANCE. OCTOBER 10-12, 2011**. 3 days of reflection on **LANDSCAPE AS A WEALTH CREATOR**: what does conserving and creating landscapes contribute to the creation of new wealth? Whether it appears patrimonial or innovative... Whether it is concerned with the attractiveness or quality of the living environment, the landscape is now revealed to be a dynamic force in our territories. To determine which actions must be undertaken to act effectively, we must assess the relationships which exist between its qualities - cultural and ecological - and societal and economic dynamics. ASLA 2011 ANNUAL MEETING AND EXPO

LANDSCAPE ARCHITECTURE RAISING: OCTOBER 30-NOVEMBER 2, 2011. SAN DIEGO, USA. At no other time since the founding of the profession have landscape architects enjoyed greater recognition by allied design professionals, the development community, and the general public. Only landscape architects have the knowledge of natural systems as they relate to the broader built environment. Landscape architects also have the vision to develop design solutions for the long term. This is allowing them to emerge from the background to lead design teams on many of the most significant projects of our time. [Read more.](#)
