

# Landscape Architecture Europe

A nighttime photograph of a modern landscape architecture project. In the foreground, a concrete path is illuminated from below by a warm, yellow light strip. A person is sitting on the edge of the path, looking towards the background. The path leads to a large, well-maintained green lawn. In the distance, a city skyline is visible under a dark blue sky, with various buildings and streetlights lit up. The overall atmosphere is serene and modern.

Presentation

**On Site**

**6 June . Zürich**

# On Site
