## **THE CHICAGO ATHENAEUM ANNOUNCES THE 2010 INTERNATIONAL ARCHITECTURE AWARDS DEADLINE DECEMBER 15, 2009**

CHICAGO, ILLINOIS, November 1, 2009. . . The Chicago Athenaeum: Museum of Architecture and Design and The European Center for Architecture Art Design and Urban Studies in association with Metropolitan Arts Press Ltd. are organizing the next edition of the “**International Architecture Awards®**” as a way in which to honor the most outstanding architecture designed and built throughout the world.

The program is organized and curated by the Finnish architecture journalist and critic, Christian K. Narkiewicz-Laine.

The deadline for 2010 **International Architecture Awards** is **December 15, 2009.**

Last year, hundreds of submissions for this Awards program were received from the best and most renowned design firms in Europe, Asia, Africa, Australia, and the Americas. The submissions ranged from new corporate headquarters, skyscrapers, institutions, sports and transportation facilities, airports, urban planning projects, sacred spaces, and private residences and multi-family housing, urban plans, and landscape architecture, designed by design practitioners in their countries of origin or abroad for both built and unbuilt projects alike.

In 2009, ninety-seven (97) buildings, landscape architecture, and urban planning projects from thirty (30) nations were selected by a distinguished jury in Helsinki, Finland, which was organized by the Finnish Association of Architects (SAFA). Noted Finnish architectural practitioners as jury members and honored 97 projects with the “**International Architecture Award.**”

Previous award winners can be seen at the Museum’s website at [www.chi-athenaeum.org](http://www.chi-athenaeum.org).

The 2010 awards program considers new corporate headquarters, skyscrapers, institutions, sports and

transportation facilities, interiors, urban planning projects, airports, and residences, urban planning for awards, designed by architects, landscape architects, and urban planners in their countries of origin or abroad for both built and unbuilt projects alike, as of January 1, 2006

The 2010 jury for awards is scheduled to take place in Europe with noted European architectural practitioners and architecture journalists serving as jury members. The awarded projects and other selected buildings will form an exhibition that is scheduled for an international tour.

In 2007-2009, “**The International Architecture Awards**” formed exhibitions of “**New World Architecture**” which were exhibited in Athens, London, Brussels, Eindhoven, and Florence.

The Chicago Athenaeum: Museum of Architecture and Design founded “**The International Architecture Awards**” as a way in which to draw significant international attention to new buildings and planning projects being built and designed worldwide by the best international architecture offices and firms.

The program has a unique educational mission and public profile with the intent of promoting and celebrating new world architecture to a international audience of developers, real-estate executives, corporate business, design professionals, and the general public.

Entry forms are available on line at [www.chi-athenaeum.org](http://www.chi-athenaeum.org).
